

**Love is the affinity which links and draws together
the elements of the world ...
Love, in fact, is the agent of universal synthesis.**

(Pierre Teilhard de Chardin)

The de Chardin Project

A love story about the origins of the universe.

Saturday, November 23, 2019

7:30 pm ■ Chapel at East Liberty Presbyterian Church

Tickets are available from Eventbrite at

www.tiny.cc/deChardin

The de Chardin Project is a play about Jesuit priest, scientist and philosopher Pierre Teilhard de Chardin (1881-1955). Silenced and exiled by the church, de Chardin, a renowned paleontologist, crossed continents searching for the missing link between his love for God and his love of Science. His groundbreaking discoveries in human evolution transcended barriers between Faith and Science. And today, his work is regarded as having changed the conversation about cosmology, evolution and theology.

In the play, de Chardin, having suffered a cerebral hemorrhage, finds himself beyond the physical world and engaged with a mysterious guide who leads him on the ultimate adventure: the excavation of himself. The play is a Dora Mavor Moore Award winner for Outstanding New Play (Independent Category).

We are delighted to be joined by the playwright, Adam Seybold (son of ELPC members Kevin and Virginia Seybold), and his wife, actress Kate Fenton, for a dramatic reading of this fascinating exploration of life, science and faith!
