It's hard to be a teenager today and challenging times call for unique solutions. Sometimes we can find those solutions when we approach the problems from a new angle. Come bring friends or make new ones while you explore how working together as a community in a safe and creative environment offers new tools for dealing with these challenges. Join Pittsburgh Playback Theatre and the Wing & A Prayer Pittsburgh Players to learn how the expressive arts can be empowering tools to face troubling times. Connect through stories and song, movement and music- and recognize you're not in this alone.
