

## Recommendations on companies that provide care and pruning for very large trees 11 July 2023

I've been happy with the company I've been using for 10 years, would be happy to share the details with those who respond, however their estimates are becoming prohibitive, looking for a second opinion.

Thanks,  
Laura

---

we really liked this guy (we also recommended him to our next door neighbor and he did her trees too). He was great to work with - shows up when he says he will, very professional and seemed to really know trees and tree care.

I don't know who you're using now, but we use Steve Miller at Bartlett Tree Experts. Expensive but a high quality job.

---

<https://www.treecompany-pittsburgh.com/>

don't know why they use such a generic name for website, it's actually Blystone Tree Service. Their price used to be below all the others but haven't had to use them in a long time. They were efficient and certainly seemed to know what they were doing.

---

Dont know what you mean by very large trees, but you might try Keelen Brothers. I've used them for some fallen trees and removals of big evergreens.

---

hi. I've used Keelen Brothers a number of times and have always been pleased with their service and pricing. Good luck!

---

I used Davey Tree in Monroeville.

A neighbor recommended them. They cut off a portion of a large tree that was broken off in the storm and removed a lot of branches. It was around \$900. which I thought was a little high, but I was happy with their work.

---

I've used B3 Tree Removal in the past for removal and trimming - I was always very pleased with their work. Happy to recommend them: <https://www.b3tree.com/>

---

We have used Jungle Jim recently for our trees.

---

I've started using Keelen Brothers Tree Services instead of Bartlett for larger jobs (removals, not pruning) where Barlett has become too expensive. So far quite happy with their work.

---

---

Someone on the listserv recommended Elevated Tree Care Service. I haven't used them but looked them up and they seem worth contacting.

---

I have used Rob Wheatland. He loves trees and cut down some huge trees for me.

---

---

I was very satisfied with Mike from GoPro Tree Care. He pruned dead branches from a large oak tree and cut down a smaller tree that had died. His prices were half as much as the estimates I received from Davey Tree, who I'd been using previously. His number is 412-452-0864.
